Dear Liza,

Enclosed, please find our latest brochure highlighting our key partnerships with corporations and foundations. Because New Day Limited is recognized, we are sending you two copies for your review and circulation. Additional copies are available upon request.

Since the establishment of our private partnership division in 1996, The Asia Foundation has grown in size and in its ability to fund meaningful programs in Asia. This program expansion and increase in funding stems from the immense support we have received from corporations and foundations. As volunteers, funders and advisors, our private-sector partners have enabled us to help more vulnerable and disenfranchised populations in Asia. As showcased in this brochure, our women's programs and the women we have helped are stronger than ever as a result of corporate and foundation funding. This support has, among other feats, established a business mentoring program in Cambodia; provided training for Mongolian women in farming and marketable handicraft skills; and created a microcredit program to provide loans to Indonesian women struggling after the 2004 tsunami.

We know there are hundreds, even thousands, of organizations you must choose from when determining your implementing partner for a humanitarian cause. Your endorsement, support and faith in our expertise have opened doors for us in the form of new partners and more beneficiaries across Asia.

As we see off 2008 and bring in the New Year, may you be proud of your efforts to support those less fortunate and steadfast in your resolve to advocate for those in need. 2009 will undoubtedly present new opportunities and challenges, and we look forward to partnering with you once more to reach more women and girls in need across Asia.

On behalf of our board, president and staff,

Thank you.
